The screenshot shows the 'AI Customer Churn Prediction Dashboard' in a web browser. The dashboard has a dark theme and a sidebar on the left with 'Quick Information' and 'Features Used'. The main area is divided into 'Customer Information' and 'Input Data Preview'. The 'Customer Information' section has dropdown menus for Gender (Male), Senior Citizen (0), Partner (Yes), and Dependents (Yes). The 'Input Data Preview' section shows a table with columns: gender, SeniorCitizen, Partner, Dependents, tenure, PhoneService, and Multiple. The table has one row with values: 0, Male, 0, Yes, Yes, 12, Yes, Yes. Below the table, there are two boxes: 'Churn Probability' (26.00%) and 'Risk Level' (Low). A green box at the bottom says 'Customer is not likely to churn.' The browser's taskbar at the bottom shows the Windows logo, search bar, and various application icons. The system tray shows the date and time as 18:13 on 14-05-2026.
